

Group Evaluation for Lab 6 – Nim Game

Your name: (Your lab is the one being evaluated)	Christy Ganger
Names of person evaluating your lab.	Larry Warner
Date:	10/28/2018

Instructions:

You should have already completed Lab 6(prelim) and uploaded a copy of your solution to Moodle. After you and your group have evaluated each other's work each one of you will submit this evaluation along with your final lab work to Moodle using the Lab 6 (final) link.

Nim

Criteria for Nim	Evaluation (Y/N)
Does the program compile and run without warnings or errors?	Yes
Does the program properly display the current board, using a loop?	Yes
Does the program take turns between the two players?	Yes
For each player, does it check that the player is removing 1, 2, or 3 markers? When there are less than 3 markers left, does it check for a proper choice?	Yes
Does the program terminate and declare a winner when the last marker is removed?	Yes

General Comments:

Awesome work, clean programming.
